

Title:

**Chemical Test (Typicals)****Aerojet Quality Note****G12****Rev #****Date****0****10/23/08**

Each shipment shall be accompanied by a legible copy of test results for the following: Chemical Test (Typicals). Reported results must be identifiable with test parameters, specifications, and material(s) to product(s) delivered. Reports must bear the date and signature of a responsible representative of the agency performing the test(s). The specifications must be listed, including the revision letter(s) or revision number(s).

NOTE:

Definition of Typical:

Representative properties of the material or product over time; not related to individual serial numbers, lots, or batches. May be an average value or may be expressed as a range or tolerance band. No traceability to delivered material is expected.
