

## Q251: Post Award Review

Effective Date: 3/23/2021

A Post Award Review (PAR) is required to be conducted with the Seller as soon as possible after the Purchase Order is placed and should be conducted prior to the start of any work commencing related to this procurement.

The purpose of a PAR is to ensure all technical, contractual and quality requirements have been adequately communicated to the supplier prior to any work commencing related to this procurement.

Buyer reserves the right to require the Seller's subcontractor's participation in the review. Seller will contact the Aerojet Rocketdyne Buyer upon receipt of this contract to schedule the PAR and determine scope of the activity including participants.

The scope of the PAR will be in accordance with QMA-F-7.08.06.023, which will be used by Aerojet Rocketdyne (as applicable) to conduct the PAR. If Q252 or Q253 are on the Purchase Order line item as well, all sections of the PAR will be reviewed with the supplier, otherwise, only the Quality section will be reviewed.

Sections of the PAR that do not apply to this Purchase Order will be removed from the review.
